

Hydro Insight

Particle Count, Concentration, Size, and Shape

PHYSICAL

Height 15in (38.1cm)

Width 10in (25.4cm)

Depth 25in (63.5cm)

Weight 29lb (13.2kg)

Sample volume Adds approximately 5ml to fluidic path of the Mastersizer 3000

ELECTRICAL

Voltage 100-240 Vac

Frequency 50-60 Hz

Connection External power supply

ENVIRONMENT

Temperature 10 to 45 °C for operation, -10 to 55 °C for storing or shipping.

Humidity 20 to 80% relative, without condensation.

COMPUTER

Type 2GHz CPU speed or better with 2GB of Ram or more
1TB Hard drive or better
2x USB3 ports available
Ideally works best with dual-monitor system to compliment the Mastersizer 3000, current MS Windows operating system.

Mastersizer is a registered trademark of Malvern Panalytical.

Hydro Insight is sold exclusively by Malvern Panalytical.
